Instructions

The LCAP Federal Addendum is meant to supplement the LCAP to ensure that eligible LEAs have the opportunity to meet the Local Educational Agency (LEA) Plan provisions of the ESSA.

The LCAP Federal Addendum Template must be completed and submitted to the California Department of Education (CDE) to apply for ESSA funding. LEAs are encouraged to review the LCAP Federal Addendum annually with their LCAP, as ESSA funding should be considered in yearly strategic planning.

The LEA must address the Strategy and Alignment prompts provided on the following page.

Each provision for each program must be addressed, unless the provision is not applicable to the LEA.

In addressing these provisions, LEAs must provide a narrative that addresses the provision **within the LCAP Federal Addendum Template.**

Under State Priority Alignment, state priority numbers are provided to demonstrate where an ESSA provision aligns with state priorities. This is meant to assist LEAs in determining where ESSA provisions may already be addressed in the LEA's LCAP, as it demonstrates the LEA's efforts to support the state priorities.

The CDE emphasizes that **the LCAP Federal Addendum should not drive LCAP development.** ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources;

however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. This LCAP Federal Addendum provides LEAs with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for LEAs to innovate with their federally-funded programs and align them with the priority goals they are realizing under the state's Local Control Funding Formula (LCFF).

LCFF provides LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The LCAP planning process supports continuous cycles of action, reflection, and improvement.

Please respond to the prompts below, and in the pages that follow, to describe the LEA's plan for making the best use of federal ESEA resources in alignment with other federal, state, and local programs as described in the LEA's LCAP.

Strategy

Explain the LEA's strategy for using federal funds to supplement and enhance local priorities or initiatives funded with state funds, as reflected in the LEA's LCAP. This shall include describing the rationale/evidence for the selected use(s) of federal funds within the context of the LEA's broader strategy reflected in the LCAP.

LAAAE's purpose for using federal funds is to increase low income and English learner student performance to the proficiency level. Another strategy LAAAE will use is to provide college readiness opportunities and resources to our families at the high school level. LAAAE uses dedicated counseling staff at the high school and summer programs designed to promote college readiness. Our counselors offer application support, help with the transition from middle to high school, how to navigate college requirements and turning in all required forms. We will continue to offer a strong newcomer support program as well as targeted academic supports to assist all of our English Learners.

Title I funds will continue to be used for to support our Math and Reading intervention classes which offer academic support for our struggling students and to continue to employ qualified teachers to work with our students.

Title II funds will continue to be used to support our teachers by offering training and development opportunities on and off campus. This helps our staff to be able to learn and use new innovative teaching strategies to their classrooms and inspiring our students.

Title III funds will help to support our English learners and ELD programs. We offer targeted intervention strategies for these students in the form of one on one classroom assistance with EL paraprofessionals and tutors who work with these students after class or school.

Title IV funds will be transferred and used to help support the Title I programs that assist our students academically

Alignment

Describe the efforts that the LEA will take to align use of federal funds with activities funded by state and local funds and, as applicable, across different federal grant programs.

LAAAE utilizes on going, regular progress monitoring of our goals and actions for effectiveness, areas that need improvement, supplemental areas that can be supported by federal funding, as well as administrative staff support for planning, data analysis, and budget alignment. Strategic program and budget planning are carried out continuously. When state and local funding resources are accounted for, federal funds will then be used to support the remaining unfunded activities using the most current regulations and guidance for the use of supplemental federal funds.

ESSA Provisions Addressed Within the LCAP

Within the LCAP an LEA is required to describe its goals, and the specific actions to achieve those goals, for each of the LCFF state priorities. In an approvable LCAP it will be apparent from the descriptions of the goals, actions, and services how an LEA is acting to address the following ESSA provisions through the aligned LCFF state priorities and/or the state accountability system.
